Ravi Maddula

E-Mail: ravimaddula0405@gmail.com Mobile: 8919666900

Professional Summary:

Accomplished and results-driven professional with overall around **08+ years** of experience and 6+ years of experience in designing analytical reports, translating data into actionable insights, and developing BI solutions. Experienced in delivering end-to-end development of Power BI reports, data modelling, and advanced analytics. Proven ability to enhance data models using DAX, streamline ETL processes by using Power Query, and create compelling visualizations to drive business insights.

Key Roles & Responsibilities:

1. **Requirement Gathering and Analysis:**
   - ✓ Collaborated with stakeholders to understand business needs and translate them into technical requirements.
   - ✓ Identifying key performance indicators (**KPIs**) and data sources.
   - ✓ Participated in weekly, daily meetings, reviews meeting as well as **communicating** with business **teams**.
2. **Data Integration and Connectivity:**
   - ✓ Developed extensive ETL pipelines utilizing Azure Data Factory, leading to a 30% increase in workflow efficiency by using Microsoft fabric.
   - ✓ Experienced in connecting to various data sources (**SQL Server** database, **Excel** files, APIs, etc.) using different connectivity modes (**Import, DirectQuery & Live Connection**) in **Power BI**.
   - ✓ Setting up data refresh **schedules and manage incremental refreshes**.
   - ✓ Installed and Configured **Data Gateways** to Refresh and Schedule Refresh the Dataset.
3. **Data Modelling and Transformation:**
   - ✓ Designed and created efficient data models using **DAX** (Data Analysis Expressions).
   - ✓ Created New Columns and New Measures over data models for the purpose of enhancing **Power BI** visuals using DAX Queries.
   - ✓ **Optimized** data structures for **performance** and scalability.
   - ✓ Created Data Model in **Power Pivot** by Establishing the **Relationship** Between the tables.
   - ✓ Experienced on **Star Schema & Snowflake Schema**, Fact & Dimension Tables
   - ✓ Implemented data transformations using **Power Query for ETL** (Extract, Transform, Load) processes.
   - ✓ **Merged** and **Appended** Queries based on the requirement.
   - ✓ Used Power Query / Query Editor for Data transformation as per the reporting needs.
4. **Report and Dashboard Development:**
   - ✓ Developed interactive and visually appealing reports and dashboards using Power BI Desktop.
   - ✓ Created **custom visuals**, charts, and tables to present insights effectively.
   - ✓ Used Incorporate slicers, filters, and **drill-through** functionalities.
   - ✓ Created **Hierarchies** and **Drilldown** Reports.

- ✓ Proficient in **creating Bookmarks, Hierarchies, Edit Interactions** behaviour in Power BI Desktop.
- ✓ Experienced in creating **Filters**, quick filters, table calculations and **parameters**
- ✓ Experienced in implementing Custom Visualizations Like Multi Slicer and **Hierarchy Slicer**.

5. **Data Visualization:**
   - ✓ Experienced in choosing **appropriate visualizations** (e.g., **bar charts, line charts, maps**) based on the data and audience.
   - ✓ Used **Table, Matrix, Waterfall Chart, Card, Gauge,** and Slicer Visualizations
   - ✓ Ensured consistency in **design and branding** across reports.
6. **Performance Optimization:**
   - ✓ Experienced in monitoring report **performance** and **optimize** queries.
   - ✓ Experienced in **Implementing best practices to enhance report rendering speed**.
7. **Security and Access Management:**
   - ✓ Configured role-based security (**RLS**) and access permissions within **Power BI Services**.
   - ✓ **Shared reports** securely with users and teams in **Power Bi Service Workspaces**.
   - ✓ Implemented **CI/CD pipelines** within **Microsoft Fabric** to enhance team productivity and shorten release cycles.
8. **Collaboration and Documentation:**
   - ✓ Worked closely with business analysts, data engineers, and other stakeholders.
   - ✓ Experienced in Document data lineage, report logic, and data source details.
9. **Troubleshooting and Maintenance:**
   - ✓ Experienced in **Debugging issues** related to data loading, transformations, or visualizations.
   - ✓ Experienced in maintaining and update existing reports as business requirements evolve.
10. **Continuous Learning and Skill Enhancement:**
    - ✓ Stay **up to date** with the latest **Power BI features** and enhancements.
    - ✓ Participated in relevant training and certification programs.

Technical Skills

BI Tools: Power Bi Desktop (Power Query, Power Pivot [Data Modelling & Enhancing the Data Model by using **DAX**, Power View & Power Bi Services.)

Databases: **SQL** Server 2008/2012, MS-Excel-2010, Microsoft Fabric.

Professional Work Experience & Projects:

1. **TSAROLABS Pvt Ltd** (June 2024 – Present), (Hyderabad)
   - Projects: **Business development, Marketing & Churn Analytics**
   - Role: **BI Engineer** Designation: **Power Bi Developer**

     - ✓ **Data Ingestion and Transformation**:
       Designed and implemented robust data ingestion pipelines using Azure Data Factory and Databricks to collect data from diverse sources such as SQL databases, REST APIs, and flat files.
       Transformed raw data into structured formats using SQL & PySpark, ensuring data consistency and quality.
     - ✓ **Medallion Architecture Implementation**:
       Developed and maintained a Medallion Architecture framework, organizing data into Bronze, Silver, and Gold layers to enhance data quality and accessibility.
       Implemented data validation and cleansing processes in the Bronze layer, using

PySpark to handle schema enforcement and data quality checks.
Enhanced data in the Silver layer by integrating and transforming it for analytical purposes, utilizing Databricks notebooks for complex transformations and aggregations.
Created optimized, ready-to-use datasets in the Gold layer for business intelligence and reporting, leveraging Azure Synapse Analytics for efficient querying and data visualization.

- ✓ **Analytics Solution Management**:
  Secured and managed analytics solutions to ensure data integrity and compliance with industry standards, implementing role-based access control (RBAC) and data encryption.
  Monitored and optimized data pipelines and analytics solutions for performance and scalability, using Azure Monitor and Log Analytics to track performance metrics and troubleshoot issues.
- ✓ **Performance Optimization**:
  Conducted performance tuning of SQL queries and Spark jobs to reduce execution time and resource consumption.
- ✓ **Integration with Azure Technologies**:
  Implemented CI/CD pipelines using Azure DevOps to automate the deployment and testing of data engineering solutions, ensuring rapid and reliable delivery of new features and updates.
- ✓ Collaborated with cross-functional teams to identify and seize business opportunities through data analytics.
- ✓ Automated routine data processing tasks, saving the team an average of 10 hours per week.
- ✓ Integrated Power BI dashboards to visualize analytics, which enhanced reporting capabilities for stakeholders.
- ✓ Executed complex DAX queries to analyze customer data, increasing actionable insights by 35%.
- ✓ Developed extensive ETL pipelines utilizing Microsoft Fabric, leading to a 30% increase in workflow efficiency.
- ✓ Implemented CI/CD pipelines within Microsoft fabric to enhance team productivity and shorten release cycles.
- ✓ Led the design and development of a scalable Microsoft fabric platform, improving data processing speed by 40%.

2. **Eyal Dror Consulting Ltd** (October 2023 – March 2024), (**6 Months Contract**), (Israel) (Remote)
   - Project: **Digital Sales Performance Analytics**
   - Role: **Sr. Power Bi Consultant**
     - ✓ Developed and maintained Power BI reports for analysing sales performance metrics in Power Bi Desktop.
     - ✓ Leveraged DAX for complex calculations and KPIs by using Power Bi Desktop.
     - ✓ Collaborated with stakeholders to enhance data models and improve insights.
     - ✓ Demonstrated critical and analytical thinking skills by identifying key performance bottlenecks and implementing solutions.

3. **Lord's Mark Microbiotech Pvt Ltd** (July 2023 - Sept 2023), (Hyderabad), (Full Time)
   - Project: Market Research Data Analysis
   - Role: **Power Bi Developer**
     - ✓ Conducted in-depth analysis of market research data using Power BI.
     - ✓ Designed interactive dashboards to visualize key trends and patterns.
     - ✓ Implemented incremental refreshes for efficient data updates.

4. **InsightsHigh** (July 2022 - Jan 2023)**,** (USA), (**Full Time**)
   Payroll: Remunance Services Pvt Ltd (Pune), (Remote)
   - Project: **PRICE VOLUME MIX** and **Channel Management**
   - Role: **Senior Bi Developer**
     - ✓ Developed custom DAX measures to analyse pricing and volume trends.
     - ✓ Designed interactive reports for channel performance assessment by using Power Bi Desktop.
     - ✓ Ensured data accuracy through ETL processes by using Power Query.
     - ✓ Achieved many-to-many relationships in complex data models by designing effective bridge tables to ensure data integrity and query performance.
     - ✓ Optimized Power BI dashboards, **reducing visual rendering time by 65%** through **performance tuning** and streamlining data models.

5. **Vijaya Diagnostic Centre Ltd** (March 2021 - Feb 2022), (Hyderabad), (**Full Time**)
   - Project**: HR Analytics** and **Sales Performance Analytics**
   - Role**: Bi Developer**
     - ✓ Built comprehensive HR dashboards using Power BI Desktop.
     - ✓ Analysed sales data to identify growth opportunities.
     - ✓ Collaborated with business leaders to drive data-driven decisions.

6. **Maxivision Eye Hospitals Pvt Ltd** (Nov 2017 - March 2020), (Hyderabad), (**Full Time**), (Onsite)
   - Project: **Sales Analytics**
   - Role: **Bi Consultant**
     - ✓ Created end-to-end Power BI solutions for sales reporting.
     - ✓ Implemented data cleaning and transformation using Power Query.
     - ✓ Shared access to reports via Power BI Services.

7. **Labelle Body Care Pvt Ltd** (Nov 2014 - Aug 2017), (Hyderabad), (Full Time),
   Role: Brand Consultant.

Educational Qualification:

- **MBA** from Osmania University in **2014**.

Personal Details:

Name: Ravi Maddula
Mother Name: Sarojana Maddula
Nationality: Indian
Languages known: English, Telugu and Hindi
