WORK History

Microsoft Power BI Developer

Accenture

02/2023 - Present *Hyderabad, India*

Project 1: Intel

INTEL I have worked as Finance power bi report developer. In this project my work is to write SQL script and migrating SAP BI report to power bi reports and paginated reports.

Project 2: RIO TINTO (Mining Industry)

RIO TINTO is the 2nd largest global leading mining group that focuses on finding mining and processing the earth's minerals resources. I have to create reports like Daily, Weekly and Monthly Fleet down time.

Project 3: AQA Education

AQA is the largest examination board in United Kingdom. It holds examination in various subjects at GCSE, AS and A Level and offers vocational qualification. In this I have to create reports based on MAT users.

Project 4: Renault Car Insurance

RCI is both car selling and insurance company. Which gets the customer information and stores the data in their application. RCI uses Power BI to generate visualization reports by doing data transformation, data modeling to get insights of customer interest on cars and insurances.

Project 5: SynOps Delivery Executive

This is Accenture's project where the requirement is to show the Full time employment, attrition, no. of employees spread over regions.

Roles and Responsibilities:

- Importing the data from various sources and analyzing the dataset, transforming data in Power Query using M-language and merging the various data sources in required format
- Writing multiple optimized DAX logics, working on data model to creating the relationship between multiple facts and dimension table and creating bridge tables between facts and dimension tables.
- Used various DAX function like Time Intelligence, Filters, Allselect, All, Calculate, Summarize etc. to create .logics
- Worked on creating multiple tabs in single report and adding bookmarks, dynamic buttons.
- Created dynamic axis change on visuals using Field Parameters.
- Plotting the visuals using default and importing the custom visuals as per requirement to satisfy the clients need.
- Creating the Row Level Security (RLS) using both static, dynamic and creating page level security for multiple pages.
- Creating the dashboards, adding web and report URL to that dashboard.
- Worked on dataflow and gateways for importing the on premises data.
- Creating the workspace, publishing the reports and giving the access to Users.

Tata Consultancy Services

08/2019 – 02/2023 *Hyderabad, India*

Project: Honeywell

Honeywell is an engineering and technology company. The company involve in various manufacturing like Aerospace, Security, Construction and so on.

Roles and Responsibilities:

Importing data from Oracle and MYSQL Database in power query to transform.

Creating time intelligence function, new calculated columns.

- Implementing Bookmarks, Drill Through, applying actions on buttons.
- Creating relationships between tables Fact and dimension tables and bridge tables.
- Scheduling the reports and giving Row Level Security to reports.
- Beside this Microsoft Power BI I have worked on other technologies like SAP BO, SQL and Informatica.

EDUCATION

Bachelor of Technology

VR Siddhartha Engineering College, Vijayawada, Andhra Pradesh, India

07/2015 - 04/2019 *GPA: 7.82*

SKILLS

Microsoft Power BI | Microsoft Fabric | DAX | SQL | Data Modeling | Data Flows | Knowledge on Python, Numpy, Pandas, Matplotlib | Power Query | Power Apps | Azure Data Factory | Paginated Reports

CERTIFICATIONS

Microsoft Power BI Data Analyst - PL-300
Certified by: Microsoft

Microsoft Fabric Analytics Engineer Associate - DP - 600
Certified by: Microsoft

Microsoft Power Platform Fundamentals - PL - 900
Certified by: Microsoft

Microsoft Power BI Service
Certified by: Udemy

Microsoft Power Apps
Certified by: Udemy

Complete Python Bootcamp
Certified by: Udemy

Complete Azure Data Factory
Certified by: Udemy

HONORS & AWARDS

I received 2 times as a "Star of the Month Award" from TCS for my dedication and hard work for completing the tasks before the deadline and 1 time received "Best Team Award".And Appreciation mail from client for my pro-activeness on resolving the issues on time.
