Srinivas Reddy

+91 7013027740 | srinivasreddy.m4276@gmail.com | GitHub | LinkedIn | LeetCode

Summary

Software Engineer experienced in building scalable, high-availability full-stack systems using Python and Java. Strong in data structures and algorithms, concurrency, and system design, delivering high-performance, reliable, and maintainable software with end-to-end ownership.

Experience

Tata Consultancy Services *Bengaluru, Karnataka*
Full Stack Web Developer – *Python, Flask, MySQL, React.js, Unix* *July 2025 - Present*

- Architected a full-stack appointment scheduling platform using Flask backend, MySQL transactional storage, React.js UI, and Node.js services for notifications and async tasks.
- Ensured strong consistency and data integrity under high concurrency using ACID guarantees, isolation levels, and defensive API design.
- Improved system reliability and maintainability by introducing modular service layers, structured logging, and centralized error handling.
- Collaborated closely with frontend and product teams to deliver a production-grade healthcare scheduling system.

Turing *California, United States*
LLM Trainer – *Python, Fine-tuning LLM* *June 2025 - July 2025*

- Contributed to Amazon's Live-Code-Bench project by training and evaluating multiple LLM models.
- Optimized LLM fine-tuning and validation workflows, improved code-generation quality to 97%.

Gsquare Software Solutions Pvt Ltd *Hyderabad, Telangana*
Software Engineer Intern – *Python, Flask, MySQL* *Oct 2024 - Apr 2025*

- Built a full-featured appointment-scheduling platform for patients, doctors, and administrators.
- Developed admin dashboards for user management, reporting, and real-time notifications and designed RESTful APIs.

Vignan University *Guntur, Andhra Pradesh*
Teaching Assistant – *Data Structures, Algorithms, Python, Java, C/C++* *Oct 2023 - Apr 2024*

- Assisted undergraduate students with Data Structures & Algorithms, Python, Java, C and web development.
- Mentored 200+ students in coding challenges, and solved 550+ coding problems on LeetCode and GeeksforGeeks.

Skills

Languages: Python, Java, C/C++, SQL, Unix, Bash

Web: HTML5, CSS3, JavaScript, PHP

Frameworks & Databases: Flask, React.js, Node.js, MongoDB, MySQL

Version controls: Git, GitHub

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, ML

Soft skills: Problem-solving, Adaptability, Communication, Time Management

Projects

Talk-a-Tive — Real-time Messaging App | *React.js, Node.js, Express.js, MongoDB* *Jan 2025 – Apr 2025*

- Developed a MERN-stack chat application supporting one-on-one and group chats (up to 100 users).
- Implemented admin controls (rename chat, add/remove participants) and secure user authentication with profile management.

Online Voting System — Secure Voting Platform | *PHP, HTML5, CSS3, JavaScript, MySQL* *Jun 2023 – Sep 2023*

- Developed an online voting system enabling secure voting via mobile OTP and email authentication.
- Enabled real-time vote registration and management, with live result tracking. Designed an admin portal for efficient election management.

Sorting Algorithm Visualizer | *Python, Flask, HTML5, CSS3, JavaScript* *Oct 2022 – Dec 2022*

- Developed an interactive tool to visually demonstrate the performance of the top 10 sorting algorithms.
- Implemented visual representations for Bubble, Selection, Insertion, Merge, Quick, Heap, and other sorting algorithms and integrated interactive graphs to display time and space complexity metrics.

Education

Vignan University – *Bachelor of Technology, Computer Science, CGPA:* ***8.11*** *July 2020 - May 2024*

- ***Coursework:*** *Data Structures, Analysis of Algorithms, Database Management Systems, Web Development*

Achievements

- Top 127 & Top 139 in TCS Global CodeVita Season 11 in 2024.
- Solved 400+ problems on Data Structures & Algorithms in LeetCode.
- Secured A2 Level in the PET examination from Cambridge University.
- 75% scholarship in Vignan University.
- Top 2% in TS EMCET in 2020 & Top 7% in TS POLYCET in 2018.

Certifications & Publications

- **Certifications:** Python, Java, Flask, MySQL, React
- **Publications:** Research on "Extraction of Text from Images using DONUT", 5th ICIPCN, July 2024.
